BIRT Designer

Restore format settings to default value – Bug 211518

Proposed solution:

- Add a default button on property editor page to allow users restoring to default settings.
- When user click on the default button, all current settings will be restored back to their original values.
- Proposed text on the button: Default or Reset

Restore format settings to default value – Bug 211518

Tabs need to add this button:

- General
- Font
- Background
- Text block
- Box
- Format
- Padding
- Border
- Margin
- Page break

This change is applied to all report elements and report items that support the following tabs (property categories)
