Parameter Dialog

Display Type – Combo Box (Continue)

The screenshot shows the 'Edit Parameter' dialog box. The 'Parameter' tab is active. The 'Name' field contains 'Country'. The 'Prompt text' field contains 'Enter dummy text'. The 'Data type' is set to 'String'. The 'Display type' is set to 'Combo Box' (annotated with a red circle 1). The 'List of value' section has 'Dynamic' selected (annotated with a red circle 2). The 'Data set' is 'Data Set'. The 'Select value column' and 'Select display text' are both set to '<None>'. The 'Default value' is set to '<Select Value.. >' (annotated with a red circle 4). The 'Sort by' is '<None>' and 'Sort direction' is 'Ascending'. The 'Display As' section shows 'Format as' set to 'Unformatted' and 'Preview with format' showing 'My String'. The 'Lis: Limit' is set to 'values'. The 'Is Required' checkbox is checked. The 'Hidden' and 'Allow Duplicate Values' checkboxes are unchecked. The 'JavaScript expression' field is empty (annotated with a red circle 3). The 'OK' and 'Cancel' buttons are at the bottom right.

Descriptions
