These don't seem to have much to do with CDT.

I defined a function MEMSET similar to yours.
What is the declaration of `handle` used in your call: `memset(handle,0,sizeof(handle))` ?
If it isn't a pointer then the call is incorrect.
The following works:

```
Code: [Select all] [Show/Hide]

#include <stddef>    // for size_t

void * MEMSET(void *__s, int __c, size_t __n);
int handle;

MEMSET(&handle,0,sizeof(handle));
```
