

BRAND GUIDELINES

OUR CORPORATE MARK

For many years, the same corporate mark was shared by the Eclipse Foundation and the Eclipse IDE, our flagship project. In 2018, we updated our visual identity to reflect our growth into a diverse global ecosystem with over 350 projects across multiple technology domains and our role as a business-friendly environment for open source software collaboration and innovation.

The Eclipse Foundation logo proudly displays our full corporate name with the trademark orange crescent in the top left corner of the mark. The orange crescent is a homage to our old Eclipse logo and a nod to our roots that started with the Eclipse IDE project. Our inspiration comes from the heart of open source - our global community who share countless ideas, technologies, and code. Therefore, with our past and open source community in mind, we have built our new brand identity.

TYPEFACES

Good typography makes a great brand. That’s why we’ve chosen to differentiate our website font from our branding font.

Brand Font - Roboto

Our brand font, Roboto, features open curves and geometric forms. Without compromising legibility, this modern font reflects the open and innovative spirit of the Eclipse community.
